

TOWN SECURED AGAINST LOSS OF MONEY BUT BOOKS ARE YET MISSING

Late Secretary Treasurer Submitted Proposition to Council

SECURITY GUARANTEED

Chattel Mortgage Registered in Town's Favor by the Mayor

On the return of Councillors Mills and Snyder from Edmonton on Thursday last, a special meeting of the town council was held to consider what matter or question of importance in connection with the disappearance of the town's books and alleged shortages, has not as yet become known, for the town's minute book shows that no motions or resolutions were introduced in writing or were of a verbal character remains unknown, although Secretary Kenny states that no motions or resolutions were introduced in writing, and consequently do not appear in the minute book. Further than that which has been common talk since that day, nothing of an accurate nature can be reported.

LATE SECRETARY APPEARED

One thing, however, is known and that is that Mr. Fieldhouse was present at the meeting, where he offered certain explanations and guaranteed any shortage there might be. The latter was done in the form of a chattel mortgage, which it is stated, will more than cover any shortage that might be found. It is understood that this was signed and sealed in the presence of the councillors, who were satisfied with such a security. Mayor Pawling left that evening for Wetaskiwin, where the mortgage was registered in the town's favor.

FURTHER ACTION IMPROBABLE

It is not probable that anything further will be done, for the town is now protected against any loss to the amount of the value of the chattels. That the ratepayers have wished this returned to the town is certain; that they desire prosecution is problematic. What has been done will secure the town against some of the loss, but what is to be done about the restoration of the missing books is another matter, with which the council is now confronted. Certainly no small difficulty will be encountered in preparing new tax rolls and this must be done before the time limit for sending out of tax notices has expired.

HEALTH BOARD TALKS OF HOSPITAL GUILD

In Event of Hospital Being Built Each Church Will Likely Support a Cot

At the regular meeting of the board of health held on Tuesday evening last, the secretary was instructed to write the council and ask for some provision for an isolated hospital at as early a date as possible. The chairman of the board was also authorized to call a public meeting, with a view to organizing a Hospital Guild. The Guild will be controlled and managed by the ladies of the town and it has been suggested that two representatives from the church of England, the Methodist, Presbyterian and Roman Catholic churches be appointed on the board of

Ross, Fake Inspector Gets Heavy Sentence

Given Sentences, Totalling 57 Years for Several Offences of Serious Nature

Ross, the American crook who escaped from the police when nearing Irma on September 17th, to stand trial here, but who was afterwards taken into custody near Killam, was last week found guilty on eighteen charges, to all of which he pleaded guilty. He was sentenced to fifty-eight years in the penitentiary and will serve his terms concurrently, the first being three years.

GAVE PERMISSION TO ERECT TELEPHONE POLES IN THEIR PRESENT POSITION

Permission of Council Secured Before Poles were Put on Sidewalk

RATEPAYERS UNAWARE

Government Did Not Take Advantage of Any Privilege

Following up what was said in last week's issue to the effect that certain telephone poles on Third Avenue should be removed in the event of no permission having been obtained to have these placed where they now are, it now comes to light that the government were allowed and in fact instructed to place these poles in on the sidewalk, rather than have them set in the gutters, where drainage would have been impaired.

Certain councillors and the mayor claim that no precedent was established when such a course was adopted, for poles in the larger cities are planted in a similar location. Be this as it may, it is now seen that government did not take advantage of any privilege, beyond the consent of the town council to utilize valuable sidewalk space. If these poles could not have been placed otherwise, then no complaints or criticisms should be forthcoming. There are, however, many things of which ratepayers are not aware and it now seems that this was one of them.

Mr. and Mrs. H. Y. Cooper, of Picton, Ont., were guests of Mr. and Mrs. S. R. Bowerman for a few days last week. They left for North Dakota on Friday's express.

Messrs H. V. Fieldhouse, Dr. Watson, T. G. Cook, H. Y. Pawling and N. E. Cook were among those who attended the Sealer Barriean boxing bout at Edmonton on Saturday evening last.

Dr. McCord, veterinary surgeon of the city of Edmonton, will be in town on Saturday and Sunday next. Dr. McCord formerly practised here and gained a good reputation in this district.

management and that each church try and support a cot. Nothing definite, however, has been done and the lines upon which the new guild will be run will largely depend on the feeling of the organization meeting.

In connection with the Guild, lectures on first aid and ambulance work will be given by Medical Health Officer Dr. Watson.

INTEREST IS STILL KEEN OVER CANDIDATES FOR MUNICIPAL HONOURS

From Interest Being Displayed Almost Certain to be an Election

RESPONSIBLE POSITION

Circulation of Petition to Prove Candidates Loyalty Unnecessary

Keen is the interest being displayed already in the forthcoming municipal elections to be held here in December and new names are now being mentioned for the mayoralty. Mayor Pawling refuses to offer himself for re-election and in this event it is obvious that someone else must come forward for the office.

Some capable man must be selected and any candidate for the office should show his desire for it, for by practically electing a citizen before hand by the circulation of a petition is not to be endorsed. This has, however, been done in the past under conditions which altogether differed from those which now exist.

It is claimed that the retiring councillors are more entitled to hold this honor than a new man and that they should be given the preference. It is even stated that councillors whose terms of office do not expire this year will come forward for the mayoralty. The latter may prove correct and it would not be at all surprising to see this ensue.

Whoever the candidate may be should be a man who has shown his capability as a shrewd businessman, imbued with more than an ordinary sense of civic loyalty. That many men of this stamp could come forward is not by any means disputed. The process of sifting the weavings from the more desirable is something that bids fair to become interesting.

BRAKEMAN'S LIFE WILL BE SAVED BUT WILL LOSE ONE OF HIS LEGS

Engine Crashed Into Car Loaded with Rails and Brakeman Ervin was Standing on Cowcatcher

What might have been a fatal accident occurred at the yards here on Monday night at about eleven o'clock when a young brakeman, Bert Ervin, who came here several months ago from the States, sustained injuries which will result in the loss of his right leg and probably the crippling of his left.

Ervin, who was taking his brother's place for the run he was about to make, was riding on the front of the engine and the train was leaving No. 1 switch to take the main line. By some manner or means, a car of rails had been placed at the end of the switch, but on the main line, and into this the moving engine crashed, with practically no warning to the unfortunate young man who had no time to jump. His legs were struck below the knees and how a fatality was avoided, for the front of the engine was demolished by the impact with the heavy steel, cannot be explained.

A special engine was immediately despatched to convey the young man to Saskatoon, for

Lord Congleton Ran Amuck at Fitzhugh

Shot Two Mountain Sheep in Jasper Park and Marched into Fitzhugh

PLACED UNDER ARREST AND WAS AFTERWARDS RELEASED

Didn't Know it was Against Law to Shoot in National Reserve

Lord Congleton, the Irish peer who visited the buffalo park here some two months ago, will take back to England an interesting experience in connection with his trip through Alberta and especially what is narrated as having taken place in the neighborhood of Fitzhugh, where a sealed gun is the only safeguard against arrest when fire arms of any kind are carried.

It seems that the young nobleman whether by error or otherwise infringed on the law at Jasper Park, where he shot two large mountain sheep. Innocently and proudly he marched back to Fitzhugh with the two sheep slung across his ponies and was forthwith confronted by a constable who placed him under arrest. He explained that he was an Irish lord, in fact bore none the less honorable a name than Lord Congleton, descendant of Charles Parnell, and protested against being placed under arrest.

The department at Ottawa was communicated with. With this explanation his lordship was released and allowed to depart.

NO ONE KNOWS WHAT IT IS BUT DEPT. IS DOING SOMETHING

Secretary Kenny Subpoenaed to Edmonton with Instructions to Bring Remainder of Books

The Department of the Attorney General is evidently getting busy in regard to the town affair and from all reports intend investigating the situation in detail, for Secretary Kenny left for Edmonton yesterday, after being subpoenaed to report in that city at once. That the matter is of importance is seen in the fact that Mr. Kenny complained of such short notice over the telephone and said he could not possibly get away. He was informed that his presence was necessary and when he came to bring along the remainder of the town's books.

Such a course by the department is not at all surprising in view of what has been expected for the past week or ten days. It is understood that Deputy Attorney General Clarry gave Conn. Snyder and Mills some pretty plain talk when they called on him in Edmonton last week and gave them to understand that the matter was of a serious nature. Developments will be anxiously awaited.

the lile between here and Edmonton was congested and more time would have been required for his conveyance to that city. Dr. Little was summoned and accompanied him to Saskatoon, the journey being made less than six hours. Dr. Little on his return here stated that the right leg would have to be removed. He is not of the opinion, however, that he will lose his other leg.

Don't forget the dance to be held on Friday night, Oct. 18th, in R. Wright's Hall. Doors open at 8.30. Admission 75cts. Special music provided.

CATTLE ARE DESTROYING GROUNDS AT LOCAL STATION; EFFORT TO PREVENT

Railway Company Went to no Small Expense to Improve Grounds

DESERVES PROTECTION

Duty of Responsible Parties to See that Town By-Law Is Enforced

Sometime ago, certain grading was put in shape and completed at the local station by the railway company and a fence placed around the premises to protect it against cattle until further improvements could be made next spring by planting shrubs, laying off flower beds and beautifying it generally.

Almost any day as many as a dozen cattle can be seen grazing inside the fence at the station and apparently no effort is made by anyone outside of railway employees to drive them out and to pound. One day last week, Agent Harper and several others, employed by the company, drove a big herd to the pound and, according to Mr. Harper, they were back again in a very few hours. Evidently they had broken out of pound and then returned to their favourite feeding place.

The G. T. P. went to no small expense this year in improving these premises, which lie in the town limits. The same company pays taxes on these premises and should be protected. Furthermore a by-law in the town ordinance forbids cattle to run at large, the penalty for which is described in the same statute. If the railway company has spent fit to improve these grounds, they are entitled to such protection and responsible parties should see to it that the law is respected as was expected when the by-law was drafted.

Chief of Police Lewis claims that he has no right to drive these cattle to pound when he is off duty and at night they are not there. In this case, steps should be taken in some manner by someone in authority to either pound these stray animals or drive them outside the town limits, where they will cease to cause annoyance and destroy public and private property.

Grain Pours Into Local Elevator

This year's grain is now pouring into the local elevator and Manager S. R. Bowerman states that the quality is generally good and in the majority of cases much better than was anticipated. Although threshing has been in operation for the past month or more, grain is not coming in as fast as it will from now on. The estimate made sometime ago to the effect that the year's yield will be one hundred per cent better than last year does not appear a high one and will undoubtedly be realized.

Friends of Mr. George Richardson, who is at present located in Edmonton, will be glad to learn that he has recently met with considerable success in the real estate business in that city.

Mr. Robert Davison, who was formerly located here, but who was later transferred to Winnipeg, is confined to a hospital in that city with typhoid fever. He is now out of danger.

Unable to Locate Grazing Lands

Ranchers who Went West Fail to Find Suitable Conditions to Answer Needs

Messrs. Colin Cattle, Henry Myers and S. Sorenson returned here on horseback from points west on Saturday last. They went as far as Te Jaune Cache, which is about four hundred and fifty miles west of here on the G. T. P. They were unsuccessful in their efforts to locate grazing lands, and will likely take a second trip in the near future north of Edson, where they expect to find new lands for their herds.

SUBDIVISION REPRESENTATIVE LODGES HIS COMPLAINT BEFORE BOARD OF TRADE

International Securities Co. Man Doesn't Think Town is Going Ahead

SAYS STAR ISN'T NEWSY

Informed that More Extensive Improvements Will Follow when Town Can Do So

A meeting of considerable interest was held in the STAR office on Friday evening last, when Mr. Frankenstein, representative for the International Securities Co., of Winnipeg, met the board of trade and certain members of the town council and offered suggestions of an extensive nature. He couldn't understand why Wainwright was not making the progress, characteristic of other towns nor why it was not going ahead faster.

Comm. Musson replied that these matters were under consideration, that a \$12,000 fire hall had been built and extensive were the improvements made this year. The matters of which he spoke were under consideration and would be realized in due time. Mr. Frankenstein stated that the board of trade had ignored him and his company and that the Wainwright Star never contained any news of the town's progress or development. From his tone, everything was wrong and his intentions were to enquire into and see what the G. T. P. really intended for Wainwright.

It might be said that an electric plant, a sewerage system and water works will come when the town can afford to undertake such work, and until this time no complaints should be forthcoming and especially from outside sources concerning the progress being made by civic bodies. Such criticism at this particular time is not necessary and if Mr. Frankenstein's tone was interpreted correctly his remarks resembled knocking, which, in this town at any rate, few people pay any attention to.

OFF ON SHOOTING TRIP

"Bob" Cameron, a well-known and popular pioneer G. T. P. conductor who was located here at one time, arrived here on Monday and on Tuesday joined Messrs. W. J. Musson, R. A. Snyder, M. L. Forster and M. A. Harpell on a fortnight's shooting trip near Sounding Lake.

For shooting chicken on Sunday, a young farmer, residing near Edgerton, was fined last week by Justice of the Peace Ross for having violated the game laws. Information was laid by Constable Webster. The offender paid \$5 and costs.

CHOSEN FRIENDS HELD BANQUET IN WHICH CERTAIN CITIZENS PARTICIPATED

Strong Lodge of Nearly Ninety Members and Candidates Weekly

ENJOYABLE ADDRESSES

Ladies Greeted as Aggregation of Jolly "Good Fellows"

Wainwright Council No. 620 of the order of Chosen Friends held a very successful banquet in the I. O. O. F. hall on Friday evening last. Previous to the function, a large class of candidates was instructed in the mysteries of the order, after which the members and invited guests sat down to tables which fairly groaned under the weight of good things, provided by many lady members of the order.

Provincial Organizer J. H. Mallet acted as Toastmaster and fulfilled the post most satisfactorily. The toast to "Our King" was duly honored and in very hearty voice. "Our Town" was proposed by Principal McLean, to which response was made by Friend S. E. James, president of the local board of trade. Both speakers spoke in glowing terms of the present and future prospects of Wainwright as a commercial centre.

"Our Province" brought very eloquent and happy speeches from Friend Dr. Little and Rev. Mr. Russell, who left nothing unsaid in extolling the wonderful possibilities of Sunny Alberta.

"Our Order" was looked after in good style by V. C. Friend Mrs. J. L. Gerow, who proposed the toast in a most speech and Organizer Mallet responded in enthusiastic style, setting forth the many points of the C. O. C. F. "Sister Societies" was proposed by P. C. Jas. Ward and the toast brought pleasing responses from Messrs. Lally, Gerow and James, who brought greetings from the other fraternal societies in the town.

Last but not least came the toast to "The Ladies". In proposing this toast, Friend Rev. Thos. Philips gave a most enjoyable and humorous address, and the gentlemen present joined in singing. "For they are jolly good fellows". The response from Mr. Clark was eloquent and sincere and very pleasing to those present.

Instrumental and vocal music were provided by Miss Winnie Isted, Mrs. Philips and Misses Nellie Isted and Gledrey. After joining hands and singing "Auld Lang Syne", the gathering broke up.

The C. O. C. F. now has a membership of over eighty members and bids fair to become an interesting factor in our social life here.

ACCEPTS NEW POSITION

Mr. Arthur Coolen, who resigned his position with the G. T. P. a short time ago, was a visitor to Winnipeg last week on business, connected with the firm of Cassidy & Coolen. Mr. Coolen has accepted a position with the G. H. Beauphy Co., as book-keeper.

Sale bills announce an auction at the farm of Mr. W. J. Lockhart, one and a half miles east of Jarrow on Thursday, October 24th. Messrs. Bowerman & Goulet are the auctioneers.

Mr. H. V. Fieldhouse is in Edmonton today and is defending an action, preferred by E. P. Ingham who formerly resided here.

WAINWRIGHT ALTA., WEDNESDAY, OCTOBER 16, 1912

UNDoubtedly from the standpoint of recovery, the town council has made a good move in securing itself against the alleged shortage of money, credited to the late secretary-treasurer, for by taking another course, what possible gain could be hoped for or expected other than mere satisfaction?

After having satisfied themselves that irregularities had occurred, which were of a serious nature, although it is not yet known to what extent, the councillors adopted a course to make absolute recovery by means of securities. By securing this protection, it is thought that the total loss will be less than the combined bonds of the bond company and the private security, which was given with the consent of both parties last week. Yet in face of this assumption, no accurate estimate can be made until the missing rolls are restored or replaced by others being prepared, after which the audit will show the nature and extent of any shortages. It is calculated, however, that ample provision has been made for shortages by the council's latest action.

THE TOWN SECURED
Certainly such a course is far better than the other which was open for the town to pursue, and if restitution is made no complaints should be heard. The restoration of any shortage is the one thing desired by all ratepayers, and any further action would only be taken for satisfaction, which one and all must admit is a secondary consideration and of minor importance.

"BUY CANADIAN MADE GOODS"

THE above maxim is one that should seriously be considered by each and every Canadian citizen, for it is one of great moment and importance to the condition and welfare any country seeks to attain. The result of purchasing abroad goods and materials which can be supplied at home is strikingly displayed by government statistics, which form sufficient evidence to prove that Canada is not in the position it should command through its trade and commerce.

To purchase beyond the country's means will in time cause results of a noticeable character and this is being done at present at a rate, unsatisfactory to Canadian industry. Money expended in this way must cause a reaction sooner or later, and the credit of the country must naturally be impaired as in the case of any individual who spends beyond his means. Expenditure must be concentrated and made in the country in which it is earned, before the effect of original earnings will accumulate.

In purchasing goods abroad, Canadian raw material and labour must naturally become less valuable, for both are thereby made less desirable. Attached to such a condition of affairs are unsatisfactory labor conditions, poorer grades of material and other accumulated effects. It is clearly the duty of patriotic citizens of Canada to build up a country where money can be secured at any time it is desired but with expenditures being made outside, no security can be given and conditions must decline.

The International Dry-Farming Congress will be in session at Lethbridge this week and prominent men from all countries will be in attendance. That the congress will be of much practical benefit to Albertans is a foregone conclusion and Lethbridge was indeed fortunate in having secured the session.

Whatever votes are lost to Taft from the republicans are almost certain of being recorded in Wilson's favor. The longer Roosevelt stays in the field with his "bull moose" policies and methods the more do they appear to have been framed to meet with the favor of the populace, rather than believed in by Teddy himself.

Rockefeller is reported as being in need of protection. When one reads so much of protection in Canada, it is not to be wondered that the "oil king" is as much deserving of this as any other magnate. But the poor man is now seeking police protection, which considerably alters the situation.

Those who have the privilege of enjoying a short holiday with the shot gun should exercise the greatest precaution for accidents this season have been numerous. Surely no one could mistake a man for a chicken and be in his proper senses, yet how often do we hear of some unfortunate being plugged while chicken shooting.

Although the following recently appeared in a western journal, it is not to be assumed that it is a western belief of a western soothsayer. "So little happens in our town that the undertaker is about the only man who can make a silk hat pay a dividend on the investment." Some newspapers have queer ideas.

It is practically certain that Wainwright will be without a place of amusement this winter. This is to be regretted for it is a common belief that an opera house could be made pay good returns in this town. The rink promises to be the only place where any kind of pastime can be afforded.

The good being accomplished by local fraternal and social societies cannot easily be estimated, for almost every night of the week is taken up with lodge work among various organizations. To spend an evening among one's fellowmen is a pleasure that the majority of local people enjoy.

Another farm laborers excursion is now speeding west over the line of the Grand Trunk. The rate from any point east of Winnipeg to this city is \$10, and one cent a mile to points beyond. It is expected that many will accompany this special train.

Outstanding accounts is something that any new country is confronted with and, before merchants can expect any change in this, certain prosperity of the community must be awaited. It is gratifying to note that locally this condition of affairs promises to be considerably altered this year.

Out of ninety-eight municipalities voting on the municipalities Act, forty-six of these units have voted against the passage of it and fifty-two rural districts in its favour. It is expected that sixty rural municipalities will be carrying on business under the new act after December 9th.

Satisfactory news to the effect that the Duke of Connaught will have an extension of time in the capacity of governor-general of Canada has come from England. Should this prove correct, Canadian citizens should rejoice for the Duke has proven himself a man of sterling qualities, both in and out of office.

Although the STAR is ever willing to answer enquiries when it can, subscribers are asked to address all enquiries as to the soundness of particular real estate to local agents. We don't complain that our office is being made an information bureau—but real estate men make this work their business.

HOTEL OF 200 ROOMS BEING ERECTED BY THE GRAND TRUNK PACIFIC

New Hotel Being Erected in Edmonton will be Called "The McDonald"

The Grand Trunk Pacific Railway has today announced the name of the Company's new hotel in Edmonton, as "The McDonald". The contract for its construction, it will be remembered, was recently awarded to the Canadian Stewart Co., of Montreal and the excavation work for the foundation has been completed. Like other Grand Trunk System hotels the building is to be of "Chateau" type, modified to suit its purpose as a modern hostelry by Messrs. Ross & MacFarlane the well known architects of Montreal. The site selected is one of the most appropriate to be found in western Canada, combining as it does, convenience to the business centre with a wonderful outlook over the pleasant valley of the Saskatchewan River. Located on McDougall Street near the crossing of Jasper Avenue and directly opposite to the Edmonton Club, full advantage has been taken of the view which bounds the entire southerly exposure of the property. The plans of architects call for a seven storey building, five of which will be devoted to 200 sleeping chambers, each having a private bath room arranged so that it may be rented singly or en suite. The building will be fire proof throughout as the exterior is entirely of stone with a steel frame of skeleton type. The floors are of reinforced concrete and the interior partitions of terra cotta. In mechanical equipment "The McDonald" will have all that recent experiments

have proved to be of value, while the interior decorations will be in perfect harmony with the rest of this really artistic building.

FEW WISH TO RETURN TO THEIR NATIVE LAND

200 Edmonton Greeks Don't Like Idea of Returning Home to Fight

Edmonton, Alta., Oct. 15.—Nicholas Sarandos, recognized leader of the Greek community in Edmonton, is arranging to start for the seat of war in the Balkan States, and with him he says, will go 100 Greeks, 200 Bulgarians, 50 Servians and 50 Macedonians, all residents of this city. "We all have parents, sisters and brothers and other relatives in the old country," he added, "and they would suffer at the hands of the Turks; more so if Turkey should prove victorious." V. Evanoloff, who left the country during the massacre of Christians under the new Turkish regime, is organizing the Macedonians to take up arms against the enemy. Of the Turkish residents in Edmonton not one has been found who is eager to return home to fight for his country.

From the number of chickens being brought into town by local sports, one would presume that these birds are much more plentiful than during previous years.

NOTICE

On and after the expiration of thirty clear days from the date of this notice, that is on and after the 9th day of November, 1912, the available quarter-sections in the following townships will be open for entry by the first eligible applicants:

	Tr. R. M.
All of	80 9 4
" "	90 9 4
" "	65 2 5

JOE UVANNI WILL BOX IN EDMONTON SOON

Well Known Italian Boy Gets Several Challenges to Choose From

Joe Uvanni, the Italian middleweight boxer who is well known here, is slated for a bout in Edmonton on Thanksgiving Day with one of several men who have already been mentioned as opponents. Al Greenwood, who has fought with Uvanni on several occasions, will likely be selected and it is practically certain that Charlie Kirby of Chauvin will be over looked.

From the fact that Kirby put up such a good showing here on fair day, when he and Uvanni fought for the Canadian championship, it is thought by local fans that the Chauvin boy is not getting a square shake. Certainly Joe should reckon with Kirby before he again puts on the gloves for this championship.

LOST—A gray tweed coat, lost about north of town on the Vermilion road or somewhere leading in this direction. Finder please leave at STAR office.

Sale of Pure Bred Shorthorns

A sale of pure bred shorthorns, composed of a mixed lot of cows, heifers and bulls, about sixty in number, will be held in Vermilion about the second week in November. The old herd bull, "Pure Scotch" was bred in Aberdeen, Scotland, and the cows are chiefly Ontario bred.

This will be an unsurpassed opportunity for farmers to obtain the best Shorthorn blood in the country. Watch for posters and further announcement. Full particulars from, R. L. CRAIG & Co., Auctioneers, Vermilion, Alta.

FOR SALE OR LEASE—Store on Third Avenue for sale or rent at reasonable charges. For particulars apply to 51-53 Robert Wright

Tenders wanted to build good school 24 x 34 and rough stable, 24 x 16 on Sec. 14 Tp. 42 Rge. 4 W 4th M. Work pressing. For particulars apply to Henry E. Spencer, 51-22 Doley

LODGE NOTICES

Well Drilling Machinery
You can make big money making wells. This is one of the few lines of work that are not over supplied. The demand for wells is far greater than can be supplied by the machine now at work. Drills command their own prices. We build the celebrated "R. R. Howell" line of well machinery, the making deep to shallow wells of all sizes, for all purposes and in all kinds of soil. Our machines are the most complete and reliable made. We have the latest improvements, are extremely strong and simple, do perfect work, are easily operated and are very fast machines. Write today for our free Catalogue.

and also to buy a Frost & Wood Mower, Rake and Binder, and see the wagons, plows, discs, etc. and get a good deal on a Melotte Cream Separator (by far the best Separator made) and if you are thinking of getting an engine and separator enquire about the Rumely

MUCH GAS GOING TO WASTE UP NORTH

Millions of Feet of Natural Gas Going to Waste in Region of Peace River Country

Edmonton, Alta., Oct. 15.—J. Brodie, city gas engineer of Edmonton, reports that millions of cubic feet of natural gas is going to waste at Pelican Fortage, 170 miles northwest of Edmonton, where he has just completed an investigation for the municipality. One of the wells, sunk to a depth of 625 feet by the Dominion government in 1897, is pouring out 4,000,000 feet a day. Twelve drillers are at work in the district under the direction of Harry Williams, a gas expert. They are sinking wells for oil, with every indication of success. The government well, upon which work was started on July 6, 1897, began to flow the following October. There were no means available at that time to utilize the product. The government appropriated \$7,000 three years ago, when an attempt was made to cap the well. The plan was to line the well with concrete. Before the work was completed, however, the pressure ripped out the lining and the well was abandoned. Mr. Brodie estimates the pressure at more than 600 pounds the square inch.

IMPROVEMENTS WILL INVOLVE MILLIONS

Edmonton Experts Now Engaged on Plans for Extensive Civic Work

Edmonton, Alta., Oct. 15.—Improvements planned by the municipality of Edmonton for 1913 and for which estimate will be brought down in November involve expenditures of between \$20,000,000 and \$25,000,000. This includes 10 miles of street railway extensions, besides paving, water, telephone, electric light and sewer work and the installation of a system to distribute natural gas, to be piped from one of the fields near the city. City engineer Latonnel who is working on the estimates, reports that the plan is sufficiently broad to meet the civic exigencies for 10 years. Experts are at work on plans for a civic centre, also for a system of parks and boulevards, upon which work will begin early next year. The municipality will also complete its city hall, costing \$250,000, before June 1, 1913. Other buildings, involving several hundred thousand dollars, are to be in readiness the coming winter and early next spring

FARMS WANTED—I have several good lots in Edmonton, to exchange for farm property. These lots are increasing in value every day, and are sure to make you money. Address,
O. A. Pearce,
735, 13th St., Edmonton, Alta.

Binds More Sheaves with Less Twine

Plymouth Binder Twine is made right. It works smoothly, ties properly, and the last of the sheaf binds as freely as the first. No knots or breaks. Fifty per cent stronger than the strain of any machine actually requires.

PLYMOUTH Binder Twine

is used more than any other twine because it is known to be the best. Made by the oldest cordage establishment in the United States, where quality and honesty are spun into every ball of twine. Farmers who insist on seeing the wheat-sheaf tag on every ball of twine save money and avoid harvest delays.

ADDITIONAL BLOCK

RICH SOIL INSURES GOOD CROPS

This is a fact which every farmer knows. He also knows that a machine that will add him in producing rich soil is a safe and economical purchase.

THE CORN KING MANURE SPREADER
Is the machine that will add you, Mr. Farmer, to increase the crop production of every square foot of your farm. It spreads the manure evenly over all the soil, being a part of the manure in contact with every particle of the soil. When manure is spread by hand this cannot be done, and some of the soil is starved while other portions of it are over-fed. The enriching of the soil is the only reason why every farmer should own a Corn King manure spreader.

THE CORN KING MANURE SPREADER
was designed by men who are thoroughly acquainted with farm machine requirements. The material from which it is constructed is selected for durability and strength. Any one that can drive a team can operate the Corn King. It transforms one of the most dreaded jobs on the farm into a pleasant one. It saves time, as one man can spread as much manure with the Corn King as five men can spread by hand. If you are going to purchase a manure spreader this season, do not forget to call and examine the Corn King before doing so.

THE BRIDESMAID

Her Duties and Privileges

Few girls go through a long period of life without being bridesmaids. The duties of a bridesmaid are many and varied, and the privileges are not few.

Of course, the adoption of the American notion of having a best-girl does away with much trouble, but the effect is not nearly so picturesque as that of a bevy of bridesmaids.

From the chosen few the chief bridesmaid must be selected, and it is a very important choice. It is best to have a sister or cousin for the principal bridesmaid, and the rest may be chosen from among the friends.

Practically all the work to be done by the bridesmaids falls to the lot of the chief-bridesmaid, and after the wedding ceremony.

The big question of dresses to be worn by the bride's attendants is generally settled by the bride and her chief bridesmaid, and the rest may be chosen from among the friends.

By the way, an extraordinary number of girls hold a strange belief that the bride or her bridesmaids should wear a certain color, and this is quite wrong. The thing never has been done as a regular custom.

Obviously, it would mean a financial strain impossible for the average party. But the bride has a full right of choice of the dresses worn by her bridesmaids.

In the church the chief bridesmaid takes her place immediately on the left of the bride, and the other bridesmaids follow in couples. In the same order they leave the church.

The duties of bridesmaids do not end with leaving the church, though. At least, they should not. At the wedding reception, the bridesmaids should see to all the many things that other people are too busy to look after.

Not according to the bride's wishes—assist her in changing her dress. The bridesmaids should see to the disposal of wedding cards and cake—when such things and the like are so common. Call me the potatoe.

I beg your pardon said the reporter, but are you Mr. Spudde, the Potato King?

Yes, but I don't like that term, replied the magnate, testily. Oh kings and castle kings and the like are so common. Call me the potatoe.

Maad—I've just married a case where a man married a girl on his death-bed so as she could have his millions when he was gone. Could you love a girl like that?

Jack—That's just the kind of girl I could love. What's her address?

Jumbled Janet
 Though the bell of the factory where she worked, Janet was not much of a sport.

She spent Bank Holiday in the country with her young man, and during a long walk they happened upon a cricket-mat.

At the identical moment of their arrival the demon howl of a crowd led the wicket with a firework bag, and the cheers were deafening.

Great cries Janet's young man. Clean bowled, middle stump. What a grand bowler! Hooley.

Janet looked at her swain, and then clutched his arm excitedly. George, she queried—George, was that a goal?

In a recent debate at the Wichita high school the woman suffrage amendment was under discussion. It would be unwise to give woman the ballot, declared a leading Daniel Webster, in attacking the proposition. Women could not be relied upon to exercise good judgment in voting.

The next speaker was a young woman. She arose and cast a pitying glance at her opponent, who looked like a poor miserable creature, and she cooed sweetly, if he ever tried to change a woman's mind once it was made up. The young woman got the decision.

Did her wedding go off without a hitch?

It did, indeed—the man she was going to marry didn't show up.

How did she know?

Johnnie—Mammy, our governess can see in the dark.

Mammy—How do you know that?

Johnnie—Last night out in the hall I heard her tell Uncle Jack that he hadn't shaved.

Obviously, it would mean a financial strain impossible for the average party. But the bride has a full right of choice of the dresses worn by her bridesmaids.

In the church the chief bridesmaid takes her place immediately on the left of the bride, and the other bridesmaids follow in couples. In the same order they leave the church.

The duties of bridesmaids do not end with leaving the church, though. At least, they should not. At the wedding reception, the bridesmaids should see to all the many things that other people are too busy to look after.

Not according to the bride's wishes—assist her in changing her dress. The bridesmaids should see to the disposal of wedding cards and cake—when such things and the like are so common. Call me the potatoe.

I beg your pardon said the reporter, but are you Mr. Spudde, the Potato King?

THE G. H. BEAUDRY CO'S. WEEKLY NEWS

Vol 1

WAINWRIGHT, OCT. 16

No. 1

You need but to see the goods advertised to realize that we can save you money on anything you may wish to purchase. Kimona Cloth

Kimmona Cloth, German Flannels, Wrappereits in all shades and patterns ranging in price from

10 to 25cts

Eastern Methods on the Prairies

The western farmer with all his interests devoted to grain raising very often is able to boast bigger crop returns to his old neighbors in the east who have continued to follow the rule of farming that gives live stock raising, fruit growing, dairying and crop growing each a place, but occasionally disaster visits his part of the prairie, and he is forced to look east for relief. Last spring, when many western farmers found themselves with thousands of bushels of frozen wheat on their hands, the folly of "carrying all their eggs in one basket" must have struck them forcibly, if not painfully. The damaged grain could only be used in one way for a profit. Mr. Simon Dymally of Alameda, who owns farms both east and west, was one of a number to appreciate the situation. He had the manager of his eastern farm buy up several hundred hogs from the Prairie district and ship them to the west to convert the frozen wheat into high-priced pork. Why did he not ship the wheat east? The reason is plain. There are so few mixed farmers in the west that the Winnipeg market maintains the highest price for hogs in the Dominion.—The Globe.

SHOW PATRIOTISM

The Montreal Herald Urges Canadians to Favor Canadian Goods.

The Montreal Herald in a display article on its front page says:

"A Montrealer who has recently decided to erect a large building was complaining the other day that his architect had just been telling him that for a large amount of the material to be used in the building he would have to go outside of Canada.

Whatever of truth there is in this statement, it is clear that two things should be done: Canada should seek to supply this home demand by investing capital in industries enterprises created for the purpose of manufacturing to meet it, and there should be a persistent campaign to induce Canadians to buy Canadian-made articles. The Manufacturers' Association has already done a great deal in this connection, but much more has yet to be done. Architects and builders should be requested by owners to specify and supply Canadian-made materials as far as possible; housekeepers should demand Canadian goods whenever in quality and price they are not too far removed from the imported article; retail merchants should show their patriotism by promoting in every reasonable way the sale of Canadian instead of foreign goods; and all buyers should keep fixed in mind the proposition that it is sound business to encourage home industries so long as they are doing their duty by producing wares of good quality at reasonable prices.

DAIRYING IN MANITOBA

A New Area East of Winnipeg Likely to Be Developed.

The Free Press, Winnipeg, says: The Manitoba Immigration Department is now turning its energies in the direction of the land in the neighborhood of St. Anne, 40 miles east of Winnipeg, through which the G.T.P. runs. This land is owned by the provincial government and offers special opportunities to dairy farmers and can be bought at prices ranging from \$10 to \$50 an acre. It has been overlooked by settlers and yet as a means to start and carry on extensive dairies, Joseph Burke, provincial immigration agent, points out that there is no better land in the country. Good water is close and plentiful and can be had at a depth of eight feet, and building timber can be found in abundance. The land is high, rolling, with immense quantities of grass.

CAMPAIGN OF EDUCATION

Wayburn Correspondent would Inform the West on the Trade Question.

Considerable interest has been aroused in Eastern Canada by the Wayburn correspondent of The Toronto News in which he advocates strongly a vigorous campaign of education in the west which would explain the policy of reasonable and moderate protection under which manufacturing has made such enormous progress in the older parts of Canada in the last fifteen years. This Wayburn writer cites as the chief reason the West is out of touch with the East on the trade question as the inability of the western citizen to see the fruits of the policy of moderate protection. He refers to the fact that there is no medium in the West to explain how the development of diversified industries in Canada means prosperity not only for the manufacturer, but for all classes of the community.

In the Methodist Church on Tuesday Oct. 15th, Aaron Danielson and Donna Jean Weaver were united in marriage by Rev. Thos. Philips.

FOR SALE OR TO LET—A Vacuum Cleaner, for cleaning carpets, upholstery ect. R. H. Wiley, 3rd. Ave. Apply Buffalo Barn.

LOCAL HAPPENINGS

Bricklayers are busily engaged placing a brick front on the new Alberta Block on Main Street, which is being erected by Mr. W. B. Crawford. The building will present a fine appearance.

The evening services at the Grace Methodist Church for next Sunday has been withdrawn in favour of the anniversary services which are being held in the Presbyterian Church.

Mr. Roy Carl and Miss Mabel Cooper, both of town, were quietly married at Biggar on Monday, September 30th. They are now residents of Biggar. Local friends will extend congratulations.

The Betts block at the corner of Main Street and Second Avenue is being brightened up this week by local painters. The color is a light yellow and improves the appearance of the building greatly.

Mrs. H. W. McLeod and children, who have been visiting at Mrs. LeLeod's former home in Sussex, N. B., returned here on Sunday. They have been absent in the east about two months or more.

According to Edmonton papers, Joe Uvanni, who boxed Charlie Kirby of Chauvin here on Fair Day, is the host at frequent spaghetti banquets in that city, similar to those held here.

The Chauvin board of trade is emulating the example set by the local board and will have a show case at the station platform at that point. This has proved a good thing for Wainwright and should answer the same for Chauvin. It will likely be built this fall sometime.

The officers of the local board of trade are planning a chicken shoot for Thanksgiving Day, when they will go to Colin Cattle's ranch near the Battle River and enjoy the popular sport. Arrangements are now being made for a pleasant outing.

SOAP
In Great Variety but all of it good. Our soap has been specially bought for its purity. We value your future trade too much to sell you soap that will spoil your skin or ruin your fine clothes. It is 100 p.c. pure
